## Project Elvetias St. Egaleo

A contemporary property of minimal aesthetics in Egaleo. It is an impressive property at the 'heart' of the Western Suburbs consisting of 7 apartments.

The orientation of the residences creates ideal conditions of comfort in every room, by allowing the natural light to enter the property. In that way it enhances the communication between the internal areas and the environment and ensures the residents the well-being they seek in their everyday life.

Every apartment has its storage room and some of them parking space in the pilotis. The minimal design and high aesthetics are reflected through the clean lines and the symmetry that dominates in the outer shell of the building and are combined with earthy tones. The planted area of shared use with arbour and installation of photovoltaic panels for the shared power, can be a meeting and relaxation spot for the residents.
