Piraeus Patron St.

Patron St.

Piraeus

In a quiet neighborhood in Piraeus, on Patron Street 76, we have created a new, impressive building with Lofts & apartments.

The complex stands out for its minimal aesthetics and its energy efficiency A+ ensures its cost-effective operation. Each residence has been designed to offer privacy, while the apartments from the 5th floor and above have unobstructed views. In addition, the southern orientation of the building ensures sunlight throughout the day, creating a warm and bright atmosphere inside.

It is located in a privileged position with direct access to the port of Piraeus and close to main roads (Piraeus, Petrou Ralli). It is within walking distance of Lofos Selepitsari and Alsos Vokou which give the tenants the opportunity for recreation and escape from everyday life.

By choosing your new home from GREEN Properties, you are choosing the home of your dreams! You have the possibility to design the kitchen and bathrooms based on your personal taste, but also to choose the materials based on your needs and preferences.

The green philosophy advocated by our company is applied to all our projects. We take advantage of the orientation of the buildings for natural light and install photovoltaics with a net metering system for the shared electricity. We also apply a thermal facade to the entire external surface of the building to minimize energy losses and use energy-efficient aluminum frames of high aesthetics. These practices not only save energy, but also reduce our environmental footprint.
