ASIS RESIDENCE

Aidiniou St. Glyfada

GREEN Properties presents OASIS Residence, a new complex of 12 residences in Glyfada.

The luxurious residences have a private pool or jacuzzi, creating an oasis of enjoyment that was also the inspiration for the name of the complex. Vertical wooden elements enhance the image of the facade and the linear lighting makes the building even more attractive at night.

The complex is ideally located near Glyfada beach and the Golf Club. It has direct access to Vouliagmenis Avenue and is within walking distance of school facilities.

By choosing your new home from GREEN Properties you are choosing the home of your dreams! You have the possibility to

design the kitchen and bathrooms based on your personal taste, but also to choose the materials based on your needs and preferences.

The green philosophy advocated by our company is applied to all our projects. We take advantage of the orientation of the buildings for natural light and install photovoltaics with a net metering system for the shared electricity. We also apply a thermal facade to the entire external surface of the building to minimize energy losses and use energy-efficient aluminum frames of high aesthetics. These practices not only save energy, but also reduce our environmental footprint.
